## CAUGHT IN AMBUSH.

American Blood Spilled on Chinese Soil.

## ADMIRAL KEMPFF REPORTS.

Four Killed and Seven Wounded in an Attempt to Relieve Tien Tsin.

## ANOTHER BATTLE IS NOW RAGING.

Three Warships, Including the Brooklyn, Ordered to Taku With a Formidable Force Aboard. Uncle Sam Prepared For All Eventualities.

Washington, June 25.—The navy department issued the following bulletin:

"A telegram from Admiral Kempff, dated Cheju, June 24, says: 'In ambuscade near Tien Tsin on the 21st, four of Waller's command were killed and seven wounded. Names will be furnished as soon as received. Force of 2,000 going to relieve Tien Tsin today.'

"The secretary of the navy has ordered Admiral Remey to go with the Brooklyn to Taku and to render to General MacArthur conveyance of any army troops which the Brooklyn can carry."

Admiral Kempff's dispatch giving the first definite news of the shedding of American blood on Chinese soil was turned over to Secretary Long as soon as he arrived at the department. With Admiral Crowninshield, the secretary carried the dispatch to the White House, where, on the president's return from church, it was laid before him. The determination was reached to order Admiral Remey, in command of the Asiatic squadron, from Manilla to Taku, on board of the armored cruiser Brooklyn. The secretary and Admiral Crowninshield returned to the navy department, where the necessary orders were dispatched to Admiral Remey. The effect of this transfer is to make Taku the headquarters of the Asiatic squadron. The Brooklyn is expected to sail at once, if possible, as the orders sent contemplate getting the admiral on the scene at the earliest moment. If the Brooklyn started Sunday, as expected, it will take her fully a week to reach Taku, as the trip is 2,000 miles and typhoons are raging. The determination to carry some of General MacArthur's troops on a flag-ship shows the emergency of the situation.

Admiral Kempff's report that four Americans were killed and seven wounded in the ambuscade of Walter's force caused the gravest concern among officials, but the chief fear was as to the outcome of the second attack, which the admiral reported would begin Sunday. This is little short of the dimensions of battle and its results may be decisive, not only to the immediate force employed, but in determining the fate of the legations and foreign settlements at Tien Tsin, and also whether the issue is or is not to be war with China.

### REINFORCEMENTS SENT.

Word reached the navy department that the battleship Oregon got away from Hongkong Saturday night, bound for Taku. This is two days ahead of her expected start. She took on 164 sailors and marines brought to Hongkong by the Zafiro. The distance is about 1,500 miles, and if she makes her record time she will be at Taku in six days, about the same time that the Brooklyn arrives from Manilla. These ships and the Monadnock are the only ones going to China.

The war branch of the government is preparing for any eventuality that may arise out of the Chinese situation. As stated by one of the highest officers of the army, the scale of preparation is of a magnitude which would both interest and surprise the public. But, he added, the information would be of even greater interest and service to any foreign foe which the United States may be called upon to face within the next few weeks or months, and, for that reason, there is no purpose to make public the complete preparations making to meet whatever issue arises. All that the officials will say is that both the army and the navy, if the occasion arises, will give a good account of themselves.

While the Berlin reports as to the safety of Baron Ketteler and the legations at Peking appear to dispose of one of the most alarming stories of the crisis, Minister Conger at Peking is still cut off from communication here, and there is no direct and official assurance of the safety of the minis-

ters and legations, nor is there a word of the relief force, including the Americans, which sought to break through to Peking.

### HARD PRESSED

Are the Besieged Troops at Tien Tsin. Peking Burning.

London, June 25.—The position of the international forces in the section of northern China, where 10,000 men are striving to keep a footing and to succor the legations in Peking, appears to increase in peril with every fresh dispatch. Peking has not been heard from for four days. The last dispatch was one imploring aid. Admiral Seymour's column of 2,000 was last heard from 12 days ago. At that time it was surrounded midway between Peking and Tien Tsin. Possibly now it has reached Peking.

The 3,000 internationals at Tien Tsin were hard pressed and fighting for their lives on Thursday, and a relieving force of less than 1,000 had been beaten back to Taku Friday. Observers on the spot think that 100,000 men would not be too many to grasp China firmly.

The admiralty received the following from the British rear admiral at Taku: "Only one runner has got through from Tien Tsin for five days. No information could be obtained except that the foreign settlement had been almost entirely destroyed and that our people were fighting hard. News is received as this telegram is dispatched that an attempt to relieve Tien Tsin on June 22 was repulsed with some loss. The allied admirals are working in perfect accord, with the Russian vice admiral as senior officer."

A press message from Shanghai embodies some later information. It says: "Official Japanese telegrams confirm the reports of a defeat of the allied forces at Tien Tsin. The foreigners there are now placed in a most desperate situation. The Russian admiral, Hillebrandt, sent a mixed force of 4,000 from Taku to attempt the relief of Tien Tsin. Nearly half of the force consisted of Japanese. The remainder was made up of contingents representing the other nations. The guns of the Chinese around Tien Tsin are superior to anything the defending European force has or is likely to have for some time. The bombardment of Tien Tsin continued Friday. Bomb shelters were hastily erected by the foreign troops, largely constructed of wetted piece goods. The food supplies are insufficient, and the continued shelling is reported to be telling terribly."

It was reported from Shanghai that the allied forces had blown up the Taku forts and that every available man had been sent to the relief of Tien Tsin. Two thousand three hundred Chinese bodies are alleged to have been cremated at Taku, and more than 4,000 Chinese are said to have been killed at Tien Tsin.

Chinese runners who have arrived at Taku report that a foreign force was engaged several days ago with an overwhelming body of Chinese 40 miles west of Tien Tsin. At Shanghai it is assumed that this force was Admiral Seymour's.

The Shanghai correspondent of The Daily Express says: "I learn from a mandarin who stealthily left Peking on June 16, and who succeeded at great hazard in getting clear, that the Boxers are massed around Peking and that more than half of the northern and western portions of the city, including the foreign settlement, were afire when the mandarin left. He could tell nothing as to the fate of the foreigners, nor much as to the general situation, but he had heard that the express dawager was preparing to go to the province of Shan Si."

### Germany In Accord.

Berlin, June 25.—An unfavorable impression is caused here by the attempts of the Russian press to create distrust over Germany in connection with the Chinese question. The inspired German organs insist that Berlin does not oppose the plans of St. Petersburg in the Chinese empire, and that the future will clearly demonstrate Germany's perfect accord with Russia in Asia.

### Sheldon Spoke.

Edinburgh, June 25.—Many of the pulpits of the city churches were filled by American delegates to the World's Women Christian Temperance Union. Rev. Charles H. Sheldon of Topeka was the principal speaker at the afternoon meeting of the congress, and he delivered a formal address at the mass meeting in the evening, when Mrs. Barnes presided.

### Stole the Safe.

Mount Vernon, June 25.—Burglars broke into the office of the Lost Run Distillery at Waterford, loaded the safe into a wagon and carried it to a ravine, where they blew it open. The distillery officials say there was no money in the safe and that the burglars got no booty.

## WENT INTO A WASHOUT

Terrible Disaster on the Rail During Storm in the South.

## AN EXPRESS WRECKED AND BURNED.

Thirty-five Persons Were Killed, Some Falling a Prey to Flames and Flood—Particulars of the Calamity.

Atlanta, June 25.—A passenger train on the Macon branch of the Southern railway ran into a washout one and a half miles north of McDonough, Ga., and was completely wrecked. The wreck caught fire and the entire train, with the exception of the Pullman car, was burned. Not a member of the train crew escaped. Thirty-five people in all were killed.

Following is a list of the dead: William A. Barclay, conductor, Atlanta; J. E. Wood, conductor, Atlanta; J. A. Hunnicut, conductor, Atlanta; J. T. Sullivan, engineer; W. W. Bennett, baggagemaster, Atlanta; T. E. Maddox, cotton buyer, Atlanta; W. J. Pate, Atlanta; 12-year-old son of W. J. Pate, Atlanta; H. R. Cressinan, Pullman conductor; George W. Flournoy, Atlanta; D. C. Highlower, Stockbridge, Ga.; W. W. Ipark, Macon, Ga.; Elder Henzon, traveling man; J. R. Florida, Nashville, Tenn.; W. O. Ellis, bridge-man, Stockbridge; D. Y. Griffith, supervisor; J. H. Rhodes, flagman; John Brantley, white; Will Green, extra fireman; W. L. Morrisett, pump re-pairer; W. R. Lawrence, foreman extra gang; Ed Byrd, colored fireman, Atlanta; Robert Spencer, train porter; four bodies unidentified; eight negro section hands.

The train left Macon at 7:10 p. m. and was due in Atlanta at 9:45 p. m. Tremendous rains, of daily occurrence for the past two weeks, have swollen all streams in this part of the South, and several washouts have been reported on the different roads. Camp's creek, which runs into the Ocmulgee, was over its banks, and its waters had spread to all the lowlands through which it runs. About a mile and a half north of McDonough the creek comes somewhat near the Southern tracks and running alongside it for some distance, finally passes under the road by a heavy stone culvert. Over that section of the country, presumably shortly after dark, it washed out a section of 100 feet in length. Into this the swiftly moving train plunged. The storm was still raging and all the car windows were closed. The passengers, secure as they thought and sheltered comfortably from the inclement weather, were hurled to death without an instant's warning.

The train, consisting of a baggage car, second-class coach, first-class coach and a Pullman sleeper, was knocked into kindling wood by the fall. The wreck caught fire a few minutes after the fall and all the coaches were burned except the Pullman car. Every person on the train except the occupants of the Pullman car perished in the disaster. There was no escape, as the heavy Pullman car weighted down the other, and the few alive in the sleeper were unable to render assistance to their fellow passengers.

### AN AWFUL SCENE.

For a brief time there was stillness. Then the occupants of the Pullman car recovered from the bewilderment, and after hard work managed to get out of their car and found themselves on the track in the pouring rain. The extent of the catastrophe was quickly apparent. Flames were already seen coming from that part of the wreckage not covered by the water. As the wreck began to go to pieces under the destructive work of both flames and flood human bodies floated out from the mass and were carried downstream by the swift current. The storm did not abate in fury. Flashes of lightning added to the steady glow of the burning train and lighted up the scene with fearful distinctness.

Flagman Quinlan, who was one of the first to get out, at once started for the nearest telegraph station. Making his way as rapidly as possible in the face of the blinding storm, he stumbled into the office at McDonough, and after telling the night operator of the wreck fell fainting to the floor. Word was quickly sent to both Atlanta and Macon, but no assistance was to be had except in the latter city, as the interrupted track prevented the arrival of any train from Macon.

Nearly the entire male population of McDonough went to the scene to render assistance, but little could be done by the rescuers, as the fire kept them at a distance. At daylight the bodies that had floated from the gorge were gathered up. A special train from Atlanta took doctors, ministers, railroad officials and helpers to the scene, but

nothing could be done save to gather up the bodies. As the dead were found they were removed to McDonough. Some of the bodies were terribly burned, while others were crushed beyond recognition. The only means of identification in the majority of the cases were letters and papers in the pockets of the victims in the catastrophe.

### AMERICAN SOLDIERS

Were Ambushed by Insurgents and a Number Killed.

Washington, June 25.—The war department has received the following cablegram from General MacArthur at Manilla: "Detachment of four officers, 100 men, Fortieth volunteer infantry, Captain Miller commanding, left Tagay on June 13 on reconnaissance up Tagayan river. They were ambushed by insurgents in a strong position. Fifty men sent to reinforce them from Tagayan. Could not take position and troops withdrew to coast post. Our loss is killed: Company H, Robert H. Coles, John H. Haywood, Fred Holloway, John T. Pellham, Frank Salsbury, Company M, Corporal Jesse G. Moody, Michael J. McQuirk. Twelve were wounded and one is missing."

### Bryan on Philadelphia Platform.

Milwaukee, June 25.—Colonel William Jennings Bryan, while en route to Chicago from his outing trip in Wisconsin stated that he would stay at Lincoln an indefinite time and would not attend the Kansas City convention unless he changed his plans. Asked his opinion of the Philadelphia platform, Colonel Bryan said: "The Philadelphia platform is the best evidence thus far given of the deception attempted by the Republican party. Taken in connection with the speeches made at the convention it shows that the Republican party's platform of 1896 was a deliberate fraud as far as the promises of international bimetallism were concerned; that the party's attitude on the trust question is insincere and that the party is not willing to state its attitude on the Philippine question and invite the judgment of the people. Nothing was more manifest in the convention than the military spirit and yet the convention did not dare to endorse the demand of the president in 1898, for a standing army of 100,000 men."

### Probably Lynched.

New Orleans, June 25.—Mrs. Josephine Coates, mother of Mrs. Sallie Ott, of this city, was criminally assaulted and murdered in her residence in an isolated neighborhood on the Tickernaw river, near Springfield, in Livingston parish. She was 60 years of age and reputed to have considerable money about her place. Frank Gilmore, a white man, who lived about two miles from her house down the river, is alleged to be the murderer. He was caught leaving the house. About 25 gathered later and took him in the timber. He has not since been heard from and it is believed he has been hanged.

### Given Furloughs.

St. Louis, June 25.—Sheriff Pohlman began reducing the force of deputies on duty to 500, under orders issued by the board of police commissioners. The men not needed are being given furloughs until July 4, when the whole force will be on duty again. The whole posse numbers 1,226 men and 76 officers. The examination of witnesses by the coroner in the inquiry as to responsibility for the death of the three strikers killed Saturday, June 10 was resumed.

### Another Strike at Havana.

Havana, June 25.—A strike has occurred among the laborers employed by the Havana Electric company, Cubans and Spaniards, on the ground that they do not receive the same wages as Americans who do similar work. They claim that the Americans receive 40 cents a day more. To this the contractors reply that Americans are worth far more than Cubans as workmen.

### Will Succeed MacDonald.

Liverpool, June 25.—Among the passengers on the Cunard line steamer Etruria, which sailed from this port for New York, was Reginald Thomas Tower, secretary of the British embassy at Washington, who, it is said, is to succeed Sir Claude MacDonald as British minister at Peking, the latter having been recalled owing to ill health.

### Prodding the Sultan.

Constantinople, June 25.—Lloyd C. Griscom, United States chargé d'affaires, presented a fresh note to the Ottoman government insisting upon an immediate reply to the demand of the United States for a settlement of the indemnity in connection with the losses of the Americans at the time of the Armenian massacres. Although vigorously phrased, the note is not an ultimatum.

## INTO A FREIGHT TRAIN

Crashes a Northwestern Express Loaded With Excursionists.

## LONG LIST OF KILLED AND MAIMED.

Former In Pulling For a Siding Had Not Cleared the Main Track. Two Coaches Telescoped. List of the Dead.

Green Bay, Wis., June 25.—A northbound passenger train on the Chicago and Northwestern road, loaded with excursionists bound for the saengerfest in this city, collided with a freight train at Depere, five miles south of here. Six persons were killed, one is missing and 34 were injured.

The dead: Ed Kuskie, Fond Du Lac, Wis., druggist; Lawrence Plank, Fond Du Lac; George L. Lloyd, Eden; Charles Mierswa, Oshkosh; Burt Ives, Oshkosh; man from Ashland, name unknown. Missing: Ed Lawson, Neenah.

The accident happened just as the passenger train was pulling into the station. A double header freight was backing into sidetrack to let the passenger by, but had not cleared the main track. The injured were nearly all in the rear coach. When the two trains came together the first car, which was a combination smoker and baggage, was driven through the second coach, where the loss of life occurred. The dead were taken out of the wreck and to an undertaking establishment at Depere. The injured were first taken to the Depere high school, which was converted into a temporary hospital, and later were brought to St. Vincent's hospital in this city. None of the trainmen were injured, the engine crews jumping in time to save themselves. Both engines were badly damaged and two coaches broken into kindling wood. Some of the injured may die.

### PERISHED IN FLAMES.

Five Small Children are Burned to Death in a House. Solomonville, A. T., June 25.—The residence of Mrs. Collier at Thatcher, was burned and five small children perished in the flames.

### A Rush of Water.

Belleville, Ills., June 25.—While miners were engaged in making an explosion in the Oak Hill coal mine, west of Belleville, they made an excavation into an abandoned mine which was filled with water. The water poured into the Oak Hill pits with great force, flooding and completely wrecking the mine in a remarkably short time. Fifty workmen in the mines came very near losing their lives, being rescued by the heroic work of the mining engineer.

### A Quiet Day.

St. Louis, June 25.—Sunday was the most quiet and uneventful since the great railway strike began on May 8. Cars were run on all branches of the Transit company's system without molestation, and thousands of persons, despite the rain that fell at intervals throughout the day, rode to and from the parks and other pleasure resorts. Many of the strikers went to Belleville, Ills., and attended a picnic given for their benefit there.

### Additional Damage Suits.

Chicago, June 25.—Additional damage suits aggregating over one million and a half dollars, have been filed in the superior court for alleged damages to property located along the union elevator loop. Of this amount, the largest part is sued for by L. Z. Leiter, who asks for \$1,100,000 for damages alleged to have been caused by the construction and operation of the elevated loop in the vicinity of property owned by him.

### Found Dead.

New Prague, Minn., June 25.—The dead body of Major Charles M. Schaefer, major in the Fourteenth Minnesota volunteers during the Spanish war and a retired officer of the regular army, was found in the cemetery in this place. A bullet wound in the head and a revolver beside the body indicated suicide. Major Schaefer was 42 years of age and saw considerable service in western Indian wars before his retirement.

Champion, Mich., June 25.—Four men lost their lives in a Champion mine explosion. The dead are: John Floyd, Noah Lark, Herman Lum and Otot Parkal. Of five men on the twenty-fifth level near the explosion, at the bottom of the shaft, but one escaped by climbing the air hose to pure air. Gases and smoke asphyxiated the victims. The cause of the explosion is not known, but was probably due to sparks from a miner's pipe.

EX SECRETARY JOHN SHERMAN says his party has a hard fight ahead if Bryan should head the Democratic ticket. Nothing more certain than that.

DOLLAR wheat is now predicted on account of serious shortage in the crop in the Northwest. Boss Hanna and his gang of Republicans will soon be exclaiming, "We did it."

MR. TAYLOR says if the National Committee will give Kentucky Republicans the "co-operation and aid they require," they will carry the State in November. Everybody knows what sort of "aid" the Kentucky crowd are after.

MR. BRYAN, is the richest man in Lincoln, Nebraska, and he has made his money, or the bulk of it, under McKinley's gold standard administration.—Dover Messenger.

But he made it by his own honest efforts, and in spite of all McKinley and his crowd have done.

THE Philadelphia Record sizes up the situation just about right in the following:

With a full Treasury and a free hand and the promise of a carnival of spoliation after the election, the adjutants in control of the grand old party are cocksure of the future. They do not expect defeat, but even if defeat should come they have laid their plans to bring the things they have in hand to a head before March 4, 1901.

I AM a citizen of this State, amenable to its laws. I am not a criminal; neither shall I ever be a fugitive from justice. Whenever indicted, if such an outrage should be committed, I shall appear on trial, conscious of my innocence and of the ultimate triumph of right and justice.

That's the way Mr. Taylor talked a few months ago. He protested too vehemently. No sooner was he indicted than he fled to Mount's retreat at Indianapolis, where he has since figured as "Kentucky's monumental coward."

"THE humiliating sight is seen," says Arthur Sewall, who four years ago was Bryan's running mate, "of the (American) farmer growing wheat at a cost of 30 cents a bushel and paying foreign carriers 30 cents, or thereabouts, a bushel to get it from the Pacific Slope to the consumer abroad." No wonder he advocates the ship subsidy bill!—Dover Messenger.

Oh, Mr. Sewall's talk is easy to explain. He's interested in ship building, and he no doubt wants Hanna's ship subsidy bill passed, because it means millions and millions of dollars as a free gift from the Government to the ship owners and ship builders, and these millions will all have to be put up by the people, the wheat growers included. It's one of the biggest schemes for plunder ever concocted, and Hanna who is at the head of the Republican National committee is at the bottom of the scheme.

### MY VICTORY,

Said Hanna to Spooner, "But I'm Not Very Proud of It."

Philadelphia Cor. St. Louis Republic.

Mark Hanna, who engineered the first nomination of McKinley through the convention of 1896, and who claimed the credit of to-day's performance, left his apartments this evening and went to the summer residence of Clement A. Griscom at Havenford, where he has heretofore hidden himself from the crowds. He professed to be serenely happy over the outcome. His public utterances were sadly at variance, however, with his private statements.

"Oh, it is a magnificent ticket; a splendid ticket, and I am more than satisfied," was what he said for publication, and his sentences were of the briefest possible description. In private his statements were pitched in another key.

This morning Hanna breakfasted with Senator Spooner, and at the table Spooner said:

"Well, what do you think of it, Hanna, now that it is all over but the shouting?"

"Well, said Hanna, slowly and apparently measuring every word, "I've won a great victory in this thing. I've finally had everything my way. I could not well get it any other way. But I must say that I am not very proud of my victory."

"What is going to be the effect of the retirement of Roosevelt from New York State politics?" Senator Spooner asked.

"I do not know," Hanna replied, "but I do believe that Roosevelt will give us Electoral votes that we would not have secured in any other way, and all of these things are worth taking into consideration."

### SHOOTING AT RIPLEY,

GROWING OUT of the Strike of the Employees of the Shoe Factory—Further Trouble Feared.

RIPLEY, OHIO, June 23.—The strike of the employees of the Ed. Moloney shoe factory here has finally resulted in violence, and the situation is regarded as serious. The men and women who have been employed in the factory heretofore are all residents of Ripley, and claim that they have been underpaid. Frank Euth removed here from Portsmouth, Ohio, with his family about two months since and secured employment in the factory as an operator of a McKay machine. He received good wages and had steady employment. When the force went out on a strike Mr. Euth told them that he could not afford to join them on account of the indebtedness he had incurred in coming here, but he expressed sympathy for them. Along with a few others he has been working regularly in finishing up odds and ends since the strike began, and has done all-round work.

Yesterday a committee of the strikers waited on Mr. Euth, and ordered him to stop work, which he did. This morning at 7 o'clock Mr. Euth went to the establishment to resume his labor, and was standing at the Second street entrance, when Charles Wiles, a finisher, stepped up to him and asked if he was going to resume work to-day. He replied in the affirmative, and Wiles asked him what kind of labor he intended to engage in. To this an answer was made that it was none of Wiles' business. The latter drew a revolver and snapped it several times. Fearing danger Mr. Euth ran back into the building, procured a gun and came to the door. He fired two shots at Wiles, one of which furrowed the top of his head, and the other barely grazed his temple.

Euth was arrested and taken before Mayor Wylie, who discharged him.

Just after the shooting a body of the workmen marched down to the factory, intent on vengeance, but every one connected therewith had disappeared.

There is a bitter feeling against the managers of the concern, and the matter was brought up at the last meeting of the Town Council.

Superintendent Sibley was expected up from Cincinnati last night with a corps of workmen to take the place of the shoe workers, and there was a big crowd of men at the wharf to give them a warm reception, but they did not come.

A special meeting of the Council was held to-day, at which it was decided to ask Mr. Moloney to send a representative to meet the working force, and a telephone message to that effect was sent him.

### TAYLOR AT PHILADELPHIA.

He Was Paraded Before the National Convention Tuesday, But Cut a Small Figure.

[Extract from Courier-Journal Dispatch.]

W. S. Taylor was lifted for the convention to look at Tuesday afternoon. The proceedings were moving with such machine-like regularity that it was found necessary to put up some of the show people of the convention to marvel at and for purpose of enthusiasm. It was planned to make him a side-show feature and a request was made on behalf of the Kentucky delegation that he be allowed to make a motion. It was after Temporary Chairman Wolcott had announced the entire temporary organization that Mr. Taylor arose from his place at the end of a row of seats in the Kentucky section and started to read his motion that the temporary organization be accepted.

Some one yelled "Taylor," and "Taylor" was taken up among the delegates.

It spread over the floor and the Kentucky delegates then stood and yelled more lustily than any of the rest.

Taylor could not be heard ten feet away and no one except those who were in the section knew what he was trying to do or say.

Adj. Gen. Collier, who stood by his side, lifted his hand and tried to put down the noise. "Take the stage!"

"Take the stage!" came from among the delegates about him, and this was the cue for a repetition of the yell over most of the floor.

Chairman Wolcott turned to Mr. Hanna, who was seated immediately behind him on the stage, and asked, "Shall I invite him to the stage?"

"By all means," responded Mr. Hanna,

who had observed and remarked upon the restlessness of the convention until

Mr. Taylor had arisen, and was pleased with the flurry.

"Will he make a speech?" asked Mr.

Wolcott. Mr. Hanna sat down on the

proposition that Mr. Taylor make a

speech at that time, so Mr. Taylor was

invited to the stage to make his motion.

He read it to the Chairman in so low a

voice as not to be audible to those in the

press stand immediately beneath him

and the delegates yelled, "Aye!" when

the motion was seconded.

MURPHY, the jeweler.

THE REV. I. J. SPENCER, of Lexington, who is preaching a series of Christ-in-every-day-life sermons, spoke on "Christ in Society." He denounced euchre playing in society as being the means of the downfall of many young men. "Men who become expert at playing cards dealt to them by fair hands," said the minister, "are not infrequently found trying their skill at the professional game." He also said that the imbibing at the fashionable bowl often started the drunkard on his downward career. The minister admonished mothers to consider well before proudly entering their daughters into society, as it is conducted in Lexington to-day.

TO FILIPINO LEADERS

General MacArthur Gives Answer to Their Peace Proposals.

Manilla, June 25.—General MacArthur has given a formal answer to the Filipino leaders who, last Thursday, submitted to him peace proposals that had been approved earlier in the day by a meeting of representatives insurgents. In his reply he assured them that all personal rights under the United States constitution, excepting trial by jury and the right to bear arms would be guaranteed them.

The promoters of the peace movement are now engaged in reconstructing the draft of the seven clauses submitted to General MacArthur in such a way as to render it acceptable to both sides. The seventh clause, providing for the expulsion of the friars, General MacArthur rejected on the ground that the settlement of that question rests with the commission by

Judge Taft.

## THE

# LINENS

Nowhere about the house can a woman show her discriminating taste more plainly than in her table linens. A dining table instantly loses its attractiveness if there is the faintest suspicion about the linen. So too with towels, bureaut scarfs, etc., in the guest room. Such points are sometimes overlooked by busy housewives and for this reason to-day we call especial attention to the linens. Every best loom is represented in our stock and many patterns are exclusively our own. As in other departments a wide price range, with qualities absolutely safe.

### REV. H. P. WALKER DEAD.

The End Came Saturday Evening—Remains to Be Buried at Flemingsburg To day.

Rev. Hiram Pearce Walker, a well known member of the Kentucky Conference, M. E. Church, South, and formerly Presiding Elder of the Maysville district, died Saturday evening at 8:30 o'clock at St. Joseph's Hospital, Lexington, where he was removed two weeks ago for treatment.

Rev. Dr. Walker had suffered failing health for the past four years, and about two months ago a complication of diseases set in which, as above stated, compelled his removal to St. Joseph's some two weeks ago.

The dead minister was a native of Fleming County, and at the time of his death was in his sixty-fourth year. His early life was spent in securing an education and later he entered the ministry of the Methodist Episcopal Church, taking charge of the church at Mt. Carmel. Later he had charge of churches in Lexington, Mt. Sterling, Covington, Newport and Cynthiana. He was then made a Presiding Elder. Four years ago, owing to ill health, he retired from active pulpit service and lived quietly at his home at Lexington. During his long career in the ministry Dr. Walker had filled every position of honor and trust within the realm of the Kentucky Conference, being a delegate to every General Conference during his service.

He was married in 1860 to Miss Catharine Kenner, of Fleming County, who died in 1885. Mrs. Emily Walker-Herr, Samuel Pearce Walker, Mrs. W. F. Shipman, William and Kenner are the children surviving him.

The funeral was held Sunday at 4 p.m. at Lexington, with Revs. Sims, Dennis, Deering and Rand officiating. The remains were brought to Flemingsburg this morning for interment.

### ORDAINED SUNDAY.

Rev. H. E. Gabby Formally Set Apart to the Work of the Ministry.

Rev. Henry E. Gabby was formally ordained as a minister of the gospel Sunday afternoon at the First Baptist Church. The service began at 3 o'clock, and was witnessed by a large number of his friends and well wishers.

Rev. Mr. Stubblefield, of the Flemingsburg and Sharpsburg churches, presided as Moderator and Mr. E. Swift as Clerk. The Council was composed of the ministers and deacons, among them Rev. A. N. White of Carlisle, Rev. Frank L. Norton of Cynthiana, Revs. Cleon Keys and Hugh F. Searcy of Lewisburg, Rev. Robt. H. Tolle of Stone Lick, and Rev. H. M. Hildreth of Cincinnati.

Mr. Gabby made a lengthy statement of his conviction and conversion and his call to the ministry, and then answered a number of questions put to him by members of the Council.

The Council then voted unanimously

FRIENDSHIP Rebekah Lodge No. 43, T. O. F., has elected the following officer: N. G.—Mrs. Joseph Lowry. V. G.—Mrs. M. B. Clark. Secretary—Mrs. T. M. Luman. Treasurer—Mr. W. C. Pelham.

Electric Park This Week.

The Cenograph Lyceum Co. will present one of the strongest bills at the park this week that good talent and money can afford. Miss Marie Clifford in dancing and singing has a national reputation, while Mr. Chas. Beulow is unexcelled in black face monologues. Wednesday and Saturday will be children's matinee, when a handsome and useful present will be given to the child holding the lucky number. The present to be given away Saturday night is on exhibition at Ray's drug store. Thursday night will be amateur night, several of Maysville's popular thespians having already signified their intention of appearing. Change of program nightly.

THOMAS GUILFOYLE was this morning awarded \$700 in his suit against the L. and N. for damages to his building, caused by a train backing against it.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. J. Wood & Son, druggists, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

## VISIT TO WASHINGTON.

A Bourbon Editor Tells of a Trip to Mr. W. R. Gill's Fine Stock Farm.

[Paris Democrat June 23rd.]

While at Washington, Mason County, Monday, we visited the stock farm of W. R. Gill, to look at his herd of Shorthorns. He has upward of forty head and they are as fine a looking lot of animals as can be found anywhere. For years he was a shorthorn breeder, but when this class of stock began to decline he retired from the business for a time, but in 1896 again re-entered it. At the sale of cattle belonging to Samuel Bell, of Bourbon, at the Paris fair grounds, he purchased eighteen head, from which his present herd sprung. They are of such strains as Young Marys, Renick Rose of Sharons, Brawny Bud, Peach Blossom, Rosabellia, Loudon Duchess, Dainty, &c. He is preparing for show at the Kentucky fairs a bull, cow and three heifers, and for beauty, form and fineness they can not be beat. Besides handling the best class of shorthorns, he raises a high class of saddle horses, a colt by W. E. Stillwell's Pat Washington being one of his many fine saddlers. Mr. Gill owns one of the best farms in Kentucky, the beautiful bluegrass, large forest trees and fine ponds giving it the appearance of a large park. This farm was once owned by the father of W. W. Forman, of Paris, and the old stone house where Mr. Forman was born is still standing on the land.

Adjoining the Gill farm is a monument to the husband of the late Mrs. M. R. McAbey, the Paris poetess. It is enclosed with a fence, and the enclosure is filled with locust trees, the monument being in the center. Mr. McAbey was killed about fifty years ago by the falling

of a mill which belonged to Mr. Gill's father.

The old stone house in which Simon Kenton was imprisoned for a long time for debt is still standing.

D. G. WILSON, Orangeburg, Ky.

In affirming the case of Ruggles against Robinson & Co., from Lewis County, the Court of Appeals says:

First—A conveyance from husband to wife was properly held invalid as to the husband's creditors where there was neither allegation nor proof that the money which was paid for the land was the separate estate of the wife, the presumption being that it belonged to the husband. Second—Where the property as to value is conflicting the Chancellor's judgment refusing to interfere with the valuation made by the appraisers in allotting a homestead in land upon which execution was levied will not be disturbed.

## DOLLAR WHEAT.

Crop is Very Short in the Great Northwest and Price of Grain is Advancing.

CHICAGO, June 22.—The Times-Herald will to-morrow publish a crop report prepared by Snow, the crop expert, who has just completed a two weeks' trip through the States of Minnesota, North and South Dakota. He declares the situation a national calamity, and claims the wheat failure the worst ever known. He estimates the Dakotas as promising only 20,000,000 bushels each and Minnesota 35,000,000 bushels, a total of 75,000,000 bushels, against 200,000,000 and 225,000,000 bushels in 1898.

Lexington Gazette: "The destruction of the wheat crop in the Northwest and its failure to improve after rains came has reduced the expectation from that section to only the one-tenth of a crop and made it necessary to draw supplies and for seed from other sections. This and unfavorable reports from other wheat-producing sections have put the speculators to work and they have run up the price of wheat 15 or 16 cents a bushel and it is not an extravagant expectation to look for a dollar a bushel before another crop is harvested. The best offer we have heard for early delivery is 75 cents per bushel for new crop, and this was offered by several dealers."

Danville Advocate: "Anderson & Spelman bought 400 acres of wheat at 75 cents per bushel."

TORONTO, ONT., June 21.—Advices received here to-day from the West make the outlook for the Canadian spring wheat crop worst in many years. Winnipeg reports that the crop in Manitoba, owing to drought and excessive rain, will be only one-quarter to one-half of what it was last year.

### Civil Service Examination.

A civil service examination for the positions of clerk and carrier in the local postal service will be held July 11th at the postoffice. Applications must be filed not later than 6 p. m. Saturday, June 30th. Blank applications can be obtained at the Secretary of the local Board at the postoffice.

### CINCINNATI TOBACCO MARKET.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

"With good sized offerings the past week the market held firm, and was rather more in favor of the seller than during the previous week. While the offerings were liberal, they were none too large for the demand, but might have been distributed to better advantage. More tobacco should be offered on Tuesday and Friday. The bad business practice of crowding 90 per cent. of the week's sales into Wednesday and Thursday should be discontinued. Selling practically all the tobacco on two days is not in the interest of the seller, but, on the contrary, redundants to the benefit of the bargain-hunters."

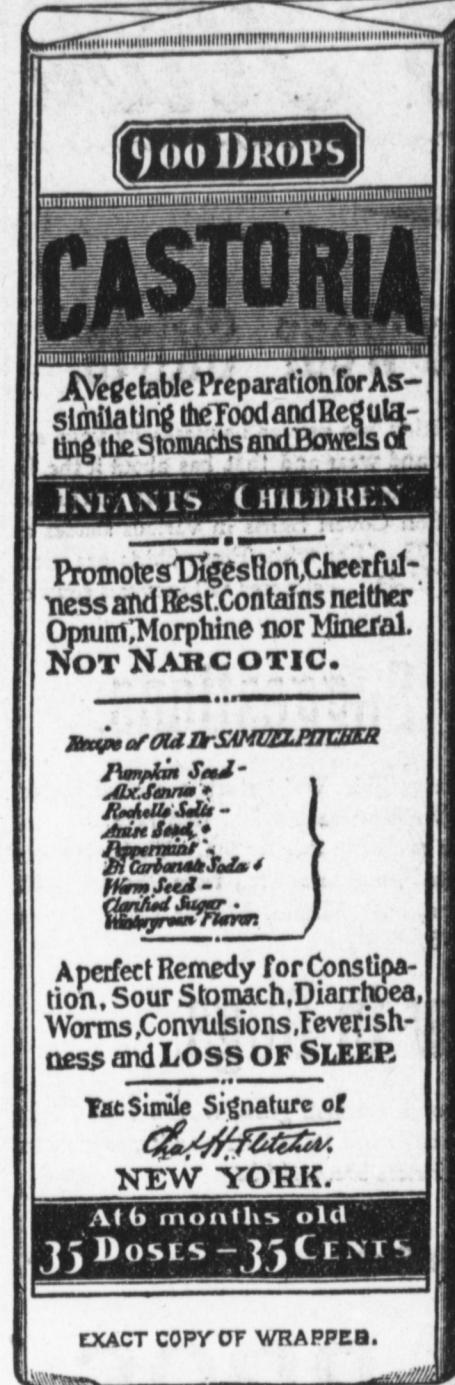

"The demand for tips was more active, and, as a rule, they sold at a shade higher prices. Common dark or mixed trash showed no marked change; while the demand for them is not stronger, it is firm and steady. Good trash was in active request and sold at prices at least appreciably higher; the inquiry for them was uniformly alert, and the bidding at all times was keen and spirited. Smooth, long lugs, grading from good to fine, were active and may be quoted as higher. The brighter grades of leaf may also be quoted as higher in price and firm in the bidding. Short red leaf, and that showing tinge of green, were firm at last week's prices, but not particularly active. Good, smooth, long red leaf was active and higher, and the bidding quick and active. The offerings of this style of leaf were, as a rule, accepted at satisfactory prices. The demand at this time appears strongest on the bright tobaccos of all grades."
